

Hawksmoor 1/2 P tent

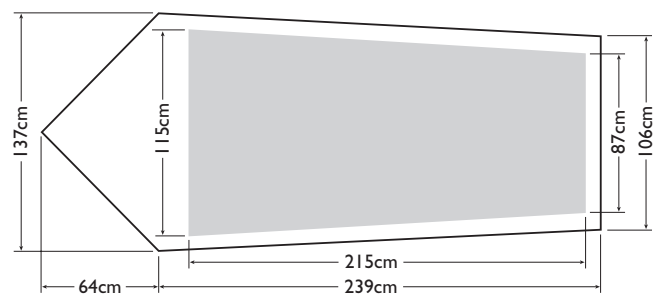

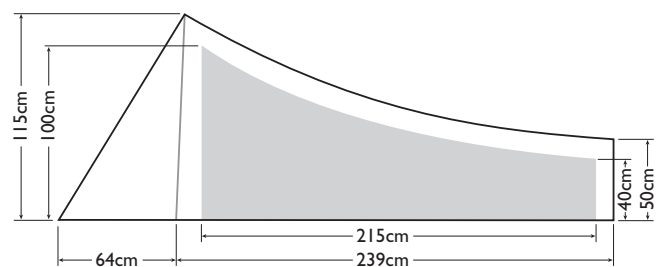

I've designed the Hawksmoor to be a great roomy lightweight 3 season 1 person tent whilst also providing enough space for 2 if needed. Can be used with either trekking poles or DAC alloy poles which can be purchased separately.

Features

- Very low weight
- Great stability in strong winds
- Groundsheet construction ensures seam-less contact with ground
- Adjustable venting
- Alternative trekking pole support
- Inner pocket and hang loop
- Front vestibule for gear storage
- Alternative tarp style setup
- Inner tent easily attaches to fly
- Fast set-up in 4 mins
- Reinforced tie-outs and apex pole supports
- Single door and vestibule

Technical details

- Sleeps 1/2
- Weight (inc. guys, shock cords and tensioners)

 - Hydrostatic Head: 3,500mm
- Ripstop Groundsheet
 - 40 Den, 70g/m²
 - TPU coated
 - Hydrostatic Head: 10,000mm
- Inner tent netting
 - 155 mesh cm²
 - Polyamid 25g/m²
- Guylines: 2mm Dyneema cord with Clamcleats
- YKK zips

WARNING!

Keep all flame and heat sources away from the tent fabric. TLT tents are not made with flame resistant fabric and will burn if in contact with any flame source.

Do not operate any device which burns fuel inside or in close proximity to this tent Combustion can produce dangerous levels of carbon monoxide which could lead to serious injury or death.
